GREAT GERMAN MARSHAL FORCED TO FALL BACK

The Great General Was Forced to Give Up These Hard Won Positions Because of the Danger of Being Encircled by the Russians and Rumanians Who Have Crossed the Danube and Invaded Bulgaria--Austrian Monitors Destroyed Pontoon Bridges Across Danube Behind Rumanian Invading Forces--One British Aeroplane Lost in Air Attack on German Airship Sheds--No Important Changes on Other Front.

London, Oct. 3.--(Bulletin)--Field Marshal Von Mackensen, the Teutonic commander in the Dobruja campaign, has ordered the evacuation of the Danube fortresses of Silistria and Turtukal, recently captured by the Teuton, Bulgarian and Turkish forces, says a Rome dispatch.

The reason given for the withdrawal of Mackensen's forces is that the German commander was in danger of being enveloped by Russian and Rumanian troops, which have crossed the Danube.

Bridges Destroyed.
Berlin, Oct. 2.--(Bulletin)--The war office announces that Austrian monitors destroyed the pontoon bridges across the Danube in the rear of the Rumanian forces which crossed the river and invaded Bulgaria.

British Aeroplane Lost.
London, Oct. 3.--British naval planes made another attack on the German airship sheds near Brussels, according to the British official statement. One of the British aeroplanes was lost.

War Summary.
London, Oct. 3.--Violent fighting is in progress on the Somme front north of Raucourt, the Paris war office announced today. The French curtain of fire and machine guns, however, were effective in checking the German attempts to debouch from Saint Pierrevast woods in this region.

The number of Rumanians who invaded Bulgaria is estimated at several battalions by the war office, according to the war office statement, which announces the passage of the Danube by the invaders.

The German forces have taken the offensive south of Drinsk, Petrograd announces, attacking the Russian lines in force near Novo Alexandrovsk. They were met, however, with an intense defensive fire from the Russian guns and forced back to their positions, the statement declares.

PRIZES AWARDED IN CLUB CONTESTS

Four Young Ladies and Two Boys Will Make Trip to Dallas Fair as Result of Their Efforts.

The annual exhibit of the Girls' Canning Club of Brazos county, under the direction of Miss Mary Locke, and the Boys' Corn Club of Brazos county, under the direction of County Agent C. L. Beason, was held yesterday and in the afternoon the judging was done and the prizes were awarded.

The displays of the young women of the canning club were very creditable and deserve especial mention.

The prizes were awarded as follows: On general exhibits, Miss Ima Cook, first prize, a trip to the State fair; second, Miss Florence Conway, a trip to the fair; third, Miss Winnie Mathis, a trip to the fair; fourth, Miss Agnes Conway, a trip to the fair. GOOD SALE IS MADE OF CANNED TOMATOES

Efforts of Young Ladies in Girls' Canning Club Bring Them Fancy Prices for Vegetables.

That the efforts of Misses Agnes and Florence Conway in their contest with the Girls' Canning Club of Brazos county were not fruitless is attested by the fact that they not only won a free trip to the State Fair of Dallas, but in doing their work for the prize they realized in another way. These two young ladies planted, raised and canned 300 cans of No. 2 tomatoes from one-tenth of an acre each, and after they had served their purpose in the shows and contests, they sold them at a fancy price. The tomatoes brought for them 95 cents per dozen cans and were purchased by Mr. D. Miko, the grocerman. The cost of canning them was about 55 cents per dozen and the girls' profit can easily be seen.

FIRE PREVENTION DAY OCTOBER 9

Fire Chief Jenkins Plans Careful Inspection in Compliance With President's Proclamation.

On next Monday, October 9th, which has been designated by the heads of the State and Nation as Fire Prevention Day, Chief C. E. Jenkins of the Bryan fire department has made arrangements to comply with the declaration. It will be recalled that this date is the anniversary of the great Chicago fire.

At a meeting last night of the Bryan fire department the chief appointed committees and divided the town into sections, and on this day the boys will make a complete inspection of the city. Every place of business will be visited and inspected. Things apt to cause fire will be noted, places that are dangerous to firemen in case of fire will be noted, and, in fact, every precaution to guard against fire will be noted. On the night after the inspection a meeting will be had of the entire department and reports will be made by each committee, and an effort will at once be made by the boys to eliminate all danger of fire and everything that would endanger their lives in case a fire broke out. This movement, as to Bryan, was inaugurated by Chief Jenkins on his own account and is very commendable. Every business firm in the city should co-operate with him and not only allow a careful inspection next Monday, but should join in and help make it. "An ounce of prevention is worth a pound of cure," says the chief of the Bryan fire department.

BRYCE DEcriED SPIRIT OF HATE

Advocated a League to Restrain Aggression and Compel Arbitration.

Birmingham, England, Oct. 3.--Viscount Bryce, former ambassador at Washington, addressing the Congressional Union today decried the spirit of hate against the Germans and the talk of a lasting trade war. In concluding, he advocated a league to restrain aggression and compel arbitration. "If there is to be a recurrence of wars becoming more terrible with the unceasing advance of science," he said, "we may as well despair of the future." Mr. Bryce said he wondered whether the United States would always remain aloof in the controversy, or whether it would take the initiative in bringing lasting peace. He praised President Wilson and Mr. Hughes for their peace stands.
